Color/Finish Options: Handles can be embossed with customer logo. Color matching available.

BIODEGRADABLE

Scoops that contain EcoPure® additive have shown enhanced bio-degradation under standard anaerobic landfill and aerobic soil conditions.

Scoops with EcoPure® additive are shelf stable and will not begin to biodegrade until the scoop is in contact with microorganisms commonly found in soil or landfills. This technology is not dependent upon UV light, heat, or mechanical stress in order to degrade the polymer.

SUSTAINABILITY INITIATIVES

PP PCR Resin

- FDA approved
- Ability to run up to 100% PCR
- Natural color is gray but can be colored
- PCR PP raw material on hand at this time
